

Yesbol Kulanbekov

iOS Engineer with 5+ years experience

ykulanbekov@alumni.nu.edu.kz | yesbolkulanbekov.github.io

Mechta Market LLP. Lead iOS engineer. *Dec 2021 - Present*

- I rebuilt the previous webview-based app with 100K+ users from the ground up using native platform APIs. New app increased the conversion rate from 5.1% to 11.8%
- Set up the architecture of the app for future extensibility
- Kept the app crash-free at a rate 99.98%
- Interviewed 20+ candidates for the junior iOS dev position
- Mentored and onboarded the junior developer leading to his first contribution in the first week

interkit.io iOS engineer. *May 2021 - Dec 2021*

- Built the “payments”, “transfers” and “deposits” feature for Top 4 Kyrgyz bank Kompanion.kg
- Implemented the “remote identification” feature using WebRTC which let clients prove identification without a visit to the bank.

zed.kz. Lead iOS engineer. *Jan 2018 – August 2020*

- Launched 6 apps from a proposal to the Appstore.
- Refactored the architecture of “investment management” app from a “mess” to the one with principles of Clean Architecture. It shortened the development of new modules by 1-2 days.
- Wrote the feature specs documents resulting in coherent work in the team and the timely submission of the projects. Specs documents guided developers and the UX designers throughout the length of the project.
- Lead the experimental project to completion, an iOS app for indoor navigation with hardware component - Bluetooth beacons for location data. App features turn based navigation for the visually impaired

global innovations LLP. Junior iOS engineer. *March 2017 – Jan 2018*

- Learned the full lifecycle of app development by implementing the “payment transfer” feature and uploading the updated app to the Appstore.
- Taught myself the iOS Platform APIs which made creating iOS apps accessible with obj-c.
- Learned to contribute and modify a large iOS app written on obj-c by creating a clone of the Signal chat app, client and back-end included.

SKILLS

- Working knowledge of UIKit, Foundation, GCD, URLSession, ARC, git source control
- Copious experience (5+ years) building apps with RESTful APIs
- Build UIKit interfaces with and without Storyboards
- Maintain, own and reduce dependencies
- Take ownership of the technical development of the app
- Validate proposed app ideas early, prior to the start of the project

EDUCATION

Nazarbayev University, Astana, Kazakhstan

BS in Robotics and Mechatronics. 2015

Developing iOS 10 Apps with Swift. Stanford University Course
